3) OBJECTIVE AND PURPOSE OF THE SCHEME:

The Shriram Group is, *inter alia*, engaged in four different lines of businesses or verticals namely: (i) Financial Lending (ii) General Insurance (iii) Life Insurance and other (iv) Financial Services. One of the main objectives for which this Scheme is being undertaken is to re-organize the Group's businesses in order to enable focused growth strategies and capital infusion for each vertical. This is in consideration of the fact that each of these lines of businesses has significant potential for growth and profitability, but with different trajectories. Each line of business activity or vertical presents a unique set of promises and challenges, with the nature of risk and reward, significantly different from the others, with each such line of business capable of attracting different sets of investors or stakeholders. The various lines of business have, until the consideration of the proposal in the present Scheme been structured in a manner that involves the co-mingling of the different verticals to synergize operations. The Companies involved in the present Scheme, which are a part of the Group, including SBCPL in which Piramal Enterprises Limited (**'PEL'**) holds 74.95% and Shriram Ownership Trust (**'SOT'**) holds 25.05%, keeping in mind the changing nature of the businesses and the market for them, are of the view that each line of business or vertical requires its own specially tailored management focus, with different strategies, to account for the difference in the challenges posed, as also the unique needs of each line of business. Accordingly, the Companies involved in the Scheme are of the view that segregating each of the above lines of business activities or verticals as mentioned earlier, will enable greater and more concentrated focus on each such line of business or vertical, and ensure greater business attention both from an operational perspective, and in terms of targeting and attracting a specific profile of investors and stakeholders for each of them. Further, to simplify and rationalize the structure of holdings, the Companies are of the view that while segregating the lines of business, it would also be expedient to eliminate the need for multiple holding companies in each line of business, which would also result in a leaner and more efficient structure.

In the light of the objective and purpose of the present Scheme, it is proposed to undertake the actions mentioned herein:

- (a) To simplify the holding structures and layers in the group of Companies forming part of the Scheme.
- (b) To focus on evolving business strategies with a specialised approach needed for a particular line of business than in a conglomerated entity having multiple businesses.
- (c) To facilitate further investment opportunities from strategic investors/financial investors depending on the particular business interests and risk appetite.
- (d) To achieve restructuring for shareholders of the various companies, in a manner which will unlock value for them.
- (e) The proposed scheme is expected to bring in intangible benefits that the Shriram Group has generated over decades, while at the same time enhancing the scale of operations and enabling better attention and focus to be given in an integrated manner to all the businesses so as to enable achievement of their full potential.

The proposed extensive restructuring exercise *via* the Scheme is expected to bring in following benefits:

- (a) Attract investment opportunities from strategic investors/financial investors who have varied business interests and risk perceptions.
- (b) Provide exit opportunities to investors.
- (c) Facilitate to achieve the objective of expanding the business of mutual fund, wealth management etc., which has tremendous potential, taking advantage of the popularity of the Shriram brand and the extensive retail network available.
- (d) Assist the Shriram Group in building a holistic digital strategy to cater to the customer needs of the entities in Shriram Group conglomerate and chalk out a digital transformation roadmap.

4) RATIONALE OF THE SCHEME

The reasons and rationale underlying the Scheme specific to each of the concerned companies, which would make it beneficial for all the companies involved, and their respective shareholders are as follows:

- a. The Transferor Company 1 and the Transferee Company 1/Demerged Company/Transferor Company 2 are both companies carrying on the business of making and holding investments in various specific lines of businesses carried on by the Group, and have both

been incorporated with same/similar objects. The amalgamation of these two companies will achieve the purpose of simplifying the structure of holdings by amalgamating entities which are similar in their fields of operation and objectives, unlock value for their respective shareholders, and eliminate the need for multiple layers of entities with the same focus.

- b. The proposed demerger and vesting of the three undertakings, namely (i) Life Insurance Undertaking; (ii) General Insurance Undertaking, and (iii) Financial Services Undertaking, into Resulting Companies 1, 2 and 3 respectively, from the Transferee Company 1/ Demerged Company/Transferor Company 2, will enable the segregation of these lines of businesses each of which have independent requirements, strategies, focus and objectives. The demerger and vesting of these independent lines of businesses and undertakings into separate Resulting Companies, will enable those Companies to carry on each of the specialized lines of business with greater focus, tailormade strategies for operations and growth; enable the attribution of appropriate risk and valuation based on the risk-return profiles of each line of business; provide greater visibility to each of these lines of business, and enable them to attract investments.
- c. The merger of Transferee Company 1/ Demerged Company/Transferor Company 2 with its remaining undertaking, with Transferee Company 2, will achieve the combination of the remaining line of business activities [i.e. other than the Life Insurance, General Insurance and Financial Services] of the Transferee Company 1/ Demerged Company/ Transferor Company 2 with Transferee Company 2, which is a listed entity engaged in the business of financial lending. This will ensure that the companies forming part of the Group, which are focused on the business of lending are concentrated in a single large entity, which has the necessary means, presence and resources to achieve still larger scales in the business of lending, while reducing the presence of multiple entities across the Group, with an interest and presence in the same line of business.
- d. The proposal in the Scheme to amalgamate the Transferor Company 3 with the Transferee Company 2, will also serve to be highly beneficial to all the stakeholders, by bringing together the capabilities and the presence of the Group in the categories of transport finance, and retail finance, and in the process create a larger financial lending entity with both these businesses combined, and the resulting benefits of scale and synergies of operation. This proposed merger will further consolidate the leadership position of Transferee Company 2 in the 'Commercial Vehicle' market. Following the proposed merger, and by virtue of the Transferor Company 3's extensive understanding of credit culture, the amalgamated entity will be able to launch retail finance products in locations that the Transferor Company 3 has not been able to penetrate. The combination of the

operations of these two entities with their own vast networks of customers, will uniquely position the Group to ensure that each line of business is expanded to its fullest potential on the strength of a larger, amalgamated entity. This process will help in consolidating the vast branch network of these two companies and is likely to provide a variety of retail lending under a single window with attendant saving of expenditure.

- e. All the Transferor Companies, the Resulting Companies and the Transferee Companies, are under the Shriram umbrella, with SOT holding 25.05% of the shareholding of the Transferor Company 1. The demerger and amalgamation contemplated in the Scheme would only strengthen and reinforce the management of these Companies, while creating a dedicated leadership and management for each of the lines of business or verticals.
- f. Being companies forming part of the same conglomerate, the amalgamation and demerger contemplated in the Scheme, would create entities that are unique to each of the lines of business activities carried on by the Group, while also enabling consolidation and lead to a more efficient utilization of capital, and create a consolidated base for the future growth of the various entities.
- g. The amalgamation envisaged in the Scheme will also enable appropriate consolidation of the activities of the Transferor Companies and the Transferee Companies with pooling and more efficient utilization of their resources, greater economies of scale, cost synergy, ease of regulatory compliances and improvement in various operating parameters, in addition to enabling the carrying on of each of the businesses in a more efficient, streamlined and organized fashion.

2.2. Need for the Scheme

The Group management is of the view that re-organizing the Group's businesses by way of the proposed Scheme will aid in simplifying the holding structures and layers in the Group which will help to focus on the evolving business strategies with a focused approach as is required for a particular line of business in a conglomerated entity having multiple businesses. The Group further believes that the proposed Scheme will help in facilitating further investment opportunities from strategic investors/financial investors depending on the particular business interests and risk appetite and also will help in achieving restructuring for shareholders of various companies in the Group, in a manner which will unlock value for them. The proposed Scheme is expected to provide other intangible benefits that the Group has built over decades various businesses and exploit the synergies in the Group interests and risk perceptions.

3. Rationale of the Scheme

The following reasons and rationale underlying the Scheme, which would make it beneficial for all the companies involved in the Scheme, and their respective shareholders:

- a. SBCPL and SCL are both companies carrying on the business of making and holding investments in various specific lines of businesses carried on by the Group, and have both been incorporated with similar objects. The amalgamation of these two companies will achieve the purpose of simplifying the Group structure by amalgamating entities which are similar in their fields of operation and objectives, unlock value for their respective shareholders, and eliminate the need for multiple layers of entities with the same focus thus enhancing value for all shareholders.
- b. The proposed demerger of SCL and vesting of the three undertakings of SCL, namely (i) Life Insurance Undertaking; (ii) General Insurance Undertaking, and (iii) Financial Services Undertaking, into SLIH, SGIH and SIHL respectively, from SCL, will enable the segregation of these lines of businesses each of which have independent requirements, strategies, focus and objectives. The demerger and vesting of these independent lines of businesses and undertakings into separate Resulting Companies, will enable those companies to carry on each of the specialized lines of business with greater focus, tailor-made strategies for operations and growth; enable the attribution of appropriate risk and valuation based on the risk-return profiles of each line of business; provide greater visibility to each of these lines of business, and enable them to attract investments.
- c. The merger of SCL with its remaining undertaking, with STFC, will achieve the combination of the remaining line of business activities (i.e. other than the Life Insurance, General Insurance and Financial Services) of SCL with STFC, which is a listed entity engaged in the business of financial lending. This will ensure that the companies forming part of the Group, which are focused on the business of lending are concentrated in a single large entity, which has the necessary means, presence and resources to achieve larger scale in the business of lending, while reducing the presence of multiple entities across the Group, with an interest and presence in the same line of business.
- d. The proposal in the Scheme to amalgamate SCUF with STFC, will also serve to be highly beneficial to all the stakeholders, by bringing together the capabilities and the presence of the Group in the categories of transport finance, and retail finance, and in the process create a larger financial lending entity with both these businesses combined, widen the range of services and products offered to customers and the resulting benefits of scale and synergies of operation. This proposed merger will further consolidate the leadership position of STFC

in the 'Commercial Vehicle' market. Following the proposed merger, and by virtue of SCUF's extensive understanding of credit culture, the amalgamated entity will be able to launch retail finance products in locations that SCUF has not been able to penetrate. The combination of the operations of these two entities with their own vast networks of customers, will uniquely position the Group to ensure that each line of business is expanded to its fullest potential on the strength of a larger, amalgamated entity. As a single entity it will be able to achieve economies of scale in operations, lower funding costs.

- e. The Transferor Company 1, Transferor Company 2, the Resulting Company 1, Resulting Company 2, Resulting Company 3 and the Transferee Company 2, are part of the Group. Their promoters are a common set of persons, and the demerger and amalgamation contemplated in the Scheme would only strengthen and reinforce the management of these companies, while creating a dedicated leadership and management for each of the lines of business or verticals.
- f. Being companies forming part of the Group, the amalgamation and demerger contemplated in the Scheme, would create entities that are unique to each of the lines of business activities carried on by the Group, while also enabling consolidation and lead to a more efficient utilization of capital, and create a consolidated base for the future growth of the various entities.
- g. The amalgamation envisaged in the Scheme will also enable appropriate consolidation of the activities of Transferor Company1, Transferor Company 2, the Resulting Company-1, Resulting Company 2 ,Resulting Company 3 and the Transferee Company-2 with pooling and more efficient utilization of their resources, greater economies of scale, cost synergy, ease of regulatory compliances and improvement in various operating parameters, in addition to enabling the carrying on of each of the businesses in a more efficient, streamlined and organized fashion.

APPROACH FOR RECOMMENDATION OF FAIR EQUITY SHARE EXCHANGE RATIO

The Proposed Merger contemplates the merger of SCL and SCUF into STFC. Arriving at the fair equity share exchange ratio for the Proposed Merger of SCL and SCUF into STFC would require determining the relative value of SCL, SCUF and the value of the equity shares of STFC. These values are to be determined independently, but on a relative basis for the Valuation Subjects, without considering the effect of the Proposed Merger.

Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for mergers and our reasonable judgment, in an independent and bona fide manner.

The Valuation Approach adopted by DD and EY is given in Annexure 1A and 1B respectively (Annexure 1A and 1B together referred to as Annexures).

BASIS OF FAIR EQUITY FAIR EQUITY SHARE EXCHANGE RATIO

The basis of the merger of SCL and SCUF into STFC would have to be determined after taking into consideration all the factors and methods mentioned hereinabove. Though different values have been arrived at under each of the above methods, for the purposes of recommending the fair equity share exchange ratio of equity shares it is necessary to arrive at a final value for each Valuation Subject. It is however important to note that in doing so, we are not attempting to arrive at the absolute equity values of the Valuation Subjects, but at their relative values to facilitate the determination of the fair equity share exchange ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each approaches / methods.

The fair equity share exchange ratio has been arrived at on the basis of a relative equity valuation of Valuation Subjects based on the various approaches / methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potentials of the businesses of the Valuation Subjects, having regard to information base, key underlying assumptions and limitations.

In the ultimate analysis, valuation will have to be arrived at by the exercise of judicious discretion by us and judgments taking into account all the relevant factors. There will always be several factors, e.g. quality of the management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of a share. The determination of exchange ratio is not a precise science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgment. This concept is also recognized in judicial decisions. There is, therefore, no indisputable single exchange ratio.

While we have provided our recommendation of the Fair Equity Share Exchange Ratio based on the information available to us and within the scope and constraints of our engagement, others may have a different opinion as to the Fair Equity Share Exchange Ratio. The final responsibility for the determination of the exchange ratio at which the Proposed Merger shall take place will be with the Board of Directors of the respective Companies who should take into account other factors such as their own assessment of the Proposed Merger and input of other advisors.

We have independently applied methods discussed in the Annexures, as considered appropriate, and arrived at the value per share of the Companies. To arrive at the consensus on the fair equity share exchange ratio for the Proposed Merger, suitable minor adjustments / rounding off have been done.

Recommendation of share entitlement ratio for the proposed Merger of Shriram Capital Limited and Shriram City Union Finance Limited into Shriram Transport Finance Limited

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we recommend the following fair equity share exchange ratio

For the Proposed Merger of SCL into STFC:

97,83,305 (Ninety Seven Lakhs Eighty Three Thousand Three Hundred and Five) equity shares of STFC of INR 10/- each fully paid up for every 10,00,00,000 (Ten Crore) equity shares of SCL of INR 1/- each fully paid up.

For the Proposed Merger of SCUF into STFC:

One Hundred and Fifty Five (155) equity shares of STFC of INR 10/- each fully paid up for every 100 (Hundred) equity shares of SCUF of INR 10/- each fully paid up.

It should be noted that we have not examined any other matter including economic rationale for the Proposed Transaction per se or accounting, legal or tax matters involved in the Proposed Transaction.

Annexure 1A- Approach to Valuation - DD

It is universally recognised that valuation is not an exact science and that estimating values necessarily involves selecting a method or approach that is suitable for the purpose.

For the purpose of arriving at valuation of the Valuation Subjects I have considered the valuation base as 'Fair Value'. Our valuation, and this report, is based on the premise of 'going concern value'. Any change in the valuation base, or the premise could have significant impact on our valuation exercise, and therefore, this Report.

It may be noted that the Institute of Chartered Accountants of India (ICAI) on June 10, 2018 has issued the ICAI Valuation Standards ("IVS") effective for all the valuation reports issued on or after July 1, 2018. IVS are mandatory for a valuation done under the Companies Act, 2013, and recommendatory for valuation carried out under other statutes/ requirements. I have given due cognizance to the same in carrying out the valuation exercise.

IVS 301 on Business Valuations deals with valuation of a business or business ownership interest (i.e. it includes valuation of equity shares).

IVS 301 specifies that generally, the following three approaches are used for valuation of business/business ownership interest:

1. Market approach
2. Income approach
3. Cost approach

Each of the above approaches are discussed in the following paragraphs.

Market Price Method:

This method involves determining the market price of an entity based on its traded price on the stock exchange over a reasonable period of time. I have determined the market price of shares of SCUF and STFC based on weighted average price on NSE over a period of three months prior to the Valuation Date. The equity shares of SCL are not listed, therefore, the Market Price Method is not used to determine the value of SCL.

Comparable Companies Multiple Method ("CCM")

This method involves valuing an asset based on market multiple of comparable companies as related to earnings, assets etc.

Income approach based on PE Multiple

Under the Comparable Companies Multiple Method based on Income Approach, I have computed the fair value based on the earnings. I have valued STFC and SCUF by applying Price to Earnings multiple to its Profits for the trailing twelve months ended September 30, 2021.

Recommendation of share entitlement ratio for the proposed Merger of Shriram Capital Limited and Shriram City Union Finance Limited into Shriram Transport Finance Limited

Asset based approach based on PB Multiple

Under the Comparable Companies Multiple Method based on assets, I have computed the fair value based on the asset base. I have valued STFC and SCUF by applying Price to Book multiples to its Book Value as of September 30, 2021.

SCL comprises of equity investment in SCUF and STFC and general bank accounts with minimal net other assets. Therefore, it derives its value based on its underlying assets. I have therefore, not considered it appropriate to use CCM Method to derive the value of SCL.

DCF Method

For lending business, the more appropriate method of valuation would be to value the worth of the existing loan portfolio considering the parameters that are normally relevant for such valuation. Normally, such businesses are valued by applying multiples to the book value as also to profits which are both captured under the CCM Method discussed above. Further, in the absence of availability of business plan for SCUF and STFC. Therefore, I have not considered the DCF Method for valuing the Company.

Cost Approach:

It is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost). IVS 301 on Business Valuations and IVS 103 on Valuation Approaches and Methods specify that common methodologies for Cost Approach are Replacement Cost Method and Reproduction Cost Method. These methods involve determining the value of the asset based on the cost that will have to be incurred to recreate/replicate the asset with substantially the same utility as that of the asset under valuation.

If assets of this quality were to be acquired by the Company, then its value in this case would be the value determined by following the commonly adopted market parameters used for valuing such businesses, which in turn would draw us back to the approach of valuation based on multiples applied to the assets and profits, which is computed under CCM Approach.

The value of SCL is based on the fair value of its underlying assets, being investments in SCUF and STFC. Therefore, Cost Approach is used to determine its value.

Attention may also be drawn to Regulation 158 of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulation") which specifies that preferential issue of equity shares to shareholders of an unlisted entity pursuant to a National Company Law Tribunal approved scheme shall conform with the pricing provisions of preferential issue specified under Regulation 164 of the said regulations. Further, it may be noted that Regulation 164 specifies the base price for issue of shares on a preferential basis. In the Proposed Merger, SCL, an unlisted entity is amalgamating with STFC, a listed entity. I have therefore, given due cognizance to the base price derived using the formula

Annexures to Notice

Recommendation of share entitlement ratio for the proposed Merger of Shriram Capital Limited and Shriram City Union Finance Limited into Shriram Transport Finance Limited

prescribed under ICDR Regulations for determining the base price used for the swap ratio for merger of SCL into STFC.

Fair Valuation:

I have arrived at the fair value of equity shares of STFC and SCUF by applying equal weights to the value derived under CCM and Market Price Method. The value for CCM is derived by giving equal weights to the value under income approach based on PE Multiple and value under asset based approach using PB Multiple.

The fair value for SCL is the value derived under the Cost Approach.

The computation of fair equity share exchange ratio for Merger of SCL into STFC by DD is tabulated below:

Annexure 1B- Approach to Valuation – EY

There are primarily three approaches in valuation (viz., Cost Approach, Market Approach and Income Approach). For any valuation, all the approaches may not be relevant and therefore will not give a fair estimate of value. Hence, the approach most suitable for that specific business / company must be applied in the valuation exercise, based on the experience and common practices adopted by valuers.

According to IVS 104 "Fair Value is the estimated amount for which an asset or liability should exchange on the Valuation Date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion".

We have adapted internationally accepted valuation standards and approaches in delivering our valuation conclusion. There are several principal valuation approaches under International Valuation Standard of which we have considered only those approaches to the extent, it is applicable and relevant.

The various approaches generally adopted in valuation are as under:

1. Income Approach: Discounted Cash Flow Method
2. Market Approach: Comparable Companies Market Multiple Method, Comparable Transactions Method and Market Price Method
3. Asset Approach: Net Asset Value Method

We have used the Market Approach (i.e. Market Price Method and Comparable Companies' Market Multiples Method) for valuation for STFC and SCUF and Asset Approach (i.e. Net Asset Value method) for valuation of SCL adjusted for fair value of investment in equity shares of STFC and SCUF.

Income Approach - Discounted Cash Flow (DCF) method: Under the DCF method the projected free cash flows to the firm are discounted at the weighted average cost of capital. The sum of the discounted value of such free cash flows is the value of the firm. Such DCF analysis involves determining the following:

- *Estimating future free cash flows:*

Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's capital – both debt and equity.

- *Appropriate discount rate to be applied to cash flows i.e. the cost of capital:*

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

We have not used Discounted Cash Flow method as the business plan for the Valuation Subjects was not provided to us.

Market Approach - Market Price (MP) method: Under this method, the value of shares of a company is determined by taking the average of the market capitalization of the equity shares of such companies as quoted on a recognized stock exchange over reasonable periods of time where such quotations are arising from the shares being regularly and freely traded in an active market, subject to the element of speculative support that may be inbuilt in the market price.

Recommendation of share entitlement ratio for the proposed Merger of Shriram Capital Limited and Shriram City Union Finance Limited into Shriram Transport Finance Limited

The equity shares of STFC and SCUF are listed on the National Stock Exchange and Bombay Stock Exchange and are traded frequently. In these circumstances the share prices observed on NSE for STFC and SCUF over a reasonable period have been considered for arriving at the value per equity share of STFC and SCUF under the Market Price method. Market Price method is not used for valuation of SCL.

Market Approach - Comparable Companies' Multiples (CCM) method: Under this method, one attempts to measure the value of the shares / business of a company by applying the derived market multiple based on market quotations of comparable public / listed companies, in an active market, possessing attributes similar to the business of such company - to the relevant financial parameter of the company / business. This valuation is based on the principle that such market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances. In the present valuation analysis, we have considered CCM method (using Price/Book Multiple and Price/Earnings Multiple) for arriving the value per equity share of STFC and SCUF. CCM method is not used for valuation of SCL.

Cost Approach – Net Asset Value (NAV) method: Under this approach, the net asset value method is considered, which is based on the underlying net assets and liabilities. In the present valuation analysis, we have considered NAV method (adjusted for fair value of investment of equity shares of STFC and SCUF as per above methods) for arriving the value per equity share of SCL.

Fair Valuation:

We have arrived at the fair value of equity shares of STFC and SCUF by applying equal weights to the value derived under CCM method and Market Price Method. The value for CCM is derived by giving equal weights to the value based on P/E Multiple and based on P/B Multiple.

The fair value for SCL is the value derived under the Cost Approach as per NAV method.

Attention may also be drawn to Regulation 158 of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulation") which specifies that preferential issue of equity shares to shareholders of an unlisted entity pursuant to a National Company Law Tribunal approved scheme shall conform with the pricing provisions of preferential issue specified under Regulation 164 of the said regulations. Further, it may be noted that Regulation 164 specifies the base price for issue of shares on a preferential basis. In the Proposed Merger, SCL, an unlisted entity is amalgamating with STFC, a listed entity. We have therefore, given due cognizance to the base price derived using the formula prescribed under ICDR Regulations for determining the base price used for the swap ratio.

Recommendation of fair NCD exchange ratio for the proposed Merger of Shriram Capital Limited and Shriram City Union Finance Limited into Shriram Transport Finance Limited

APPROACH FOR RECOMMENDATION OF FAIR NCD EXCHANGE RATIO

The Proposed Merger contemplates the merger of SCUF into STFC. Arriving at the fair NCD exchange ratio for the Proposed Merger of SCUF into STFC would require determining the relative value of NCDs of SCUF and the value of NCDs of STFC proposed to be issued.

The proposal is to issue to the NCD holders of SCUF the NCDs of STFC with the same terms including the coupon rates, tenure, redemption price and quantum and nature of security etc.

Further, it is understood from the Management that considering the credit ratings of existing NCDs of STFC and SCUF, the existing market yields of NCDs of SCUF and STFC are not materially different.

In light of the above, and on a consideration of all the relevant factors and circumstances as discussed and outlined hereinabove, we recommend the fair NCD entitlement ratio of

For every 1 (One) NCD of SCUF 1 (One) NCD of STFC of equivalent face and paid-up value, coupon rate, tenure, redemption price and quantum and nature of security offered etc.

All the terms of each of the NCDs of STFC to be issued shall be exactly the same as the respective existing NCDs of SCUF.

These values are to be determined independently, but on a relative basis for the Valuation Subjects, without considering the effect of the Proposed Merger.

It should be noted that we have not examined the economic rationale for the Proposed Transaction per se nor accounting, legal or tax matters involved in the Proposed Transaction.

3. Emphasis of matter

Attention is drawn to Note No 10 of the Statement which describe the fact that the additional ECL provision on account of COVID-19 is made based on the Company's historical experience, collection efficiencies till date, internal assessment on the impacted segments and other emerging forward-looking factors on account of the pandemic. However, the actual impact may vary due to prevailing uncertainty caused by the pandemic. The Company's management is continuously monitoring the situation and the economic factors affecting the operations of the Company. Further, the extent to which the COVID-19 pandemic will impact the Company's Financial Performance is dependent on future developments, which are highly uncertain.

Our opinion is not modified in respect of the above matters.

The Statement has been prepared on the basis of the standalone annual financial statements. The Company's Management and Board of Directors are responsible for the preparation and presentation of the Statement that gives a true and fair view of the net profit and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Ind AS 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with the Listing Regulations. 5. Auditor's Responsibilities for the Audit of the standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(g) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of standalone financial statements on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- iv. Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
- v. Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation.

- vi. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- vii. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

6. Other matters

Attention is drawn to the fact that the audited standalone financial results of the Company for the quarter and year ended 31 March 2021 were audited by erstwhile auditors whose report dated 30th April 2021, expressed an unmodified opinion on those audited standalone financial results and the standalone financial statements. Our opinion is not modified in respect of these matters.

The Statement includes the results for the quarter ended 31 March 2022 being the balancing figure between the audited figures in respect of the full financial year and the published unaudited year to date figures up to the third quarter of the current financial year which were subject to limited review by us.

3. Emphasis of Matter

Attention is drawn to Note No 7 in regard to the additional bCL provision on account of COVID-19 which is based on the Group's historical experience, collection efficiencies till date, internal assessment on the impacted segments and other emerging forward looking factors on account of the pandemic. However, the actual impact may vary due to prevailing uncertainty caused by the pandemic. The Group's management is continuously monitoring the situation and the economic factors affecting the operations of the Group. Further, the extent to which the COVID-19 pandemic will impact the Group's Financial Performance is dependent on future developments, which are highly uncertain.

Our opinion is not modified in respect of the above matters.

4. Management's Responsibilities for the Consolidated Financial Results

The Statement has been prepared on the basis of the consolidated annual financial statements. The Holding Company's Board of Directors are responsible for the preparation and presentation of the Statement that give a true and fair view of the Consolidated net profit and other comprehensive income and other financial information of the Group in accordance with recognition and measurement principles laid down in Ind AS 34, 'Interim Financial Reporting' prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with the Listing Regulations.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Statement by the Directors of the Holding Company, as aforesaid. In preparing the Statement, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Companies in the Group or to cease operations, or has no realistic alternative but to do so. 5. Auditor's Responsibilities for the Audit of the Consolidated Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion through a separate report on the Complete set of Consolidated Financial Statements on whether the company and its subsidiary has adequate internal financial controls with reference to Consolidated financial statements in place and the operating effectiveness of such controls.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- iv. Conclude on the appropriateness of the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

SCHEME DETAILS, LISTING AND PROCEDURE

The Scheme involves (i) amalgamation of Shrilekha Business Consultancy Private Limited (“Transferor Company 1” or “SBCPL”) with Shriram Capital Limited (“Transferee Company 1” or “Demerged Company” or “Transferor Company 2” or “SCL”) ; (ii) the demerger of that undertaking from SCL, which is carrying on the business of Financial Services, and the transfer and vesting thereof into Shriram Investment Holdings Limited (“Resulting Company 3” or “SIHL”) (iii) the demerger of those undertakings from SCL, which are carrying on the businesses of a) Life Insurance and b) General Insurance, and the transfer and vesting of the same into a) Shriram LI Holdings Private Limited (“Resulting Company 1” or “SLIH”), and b) Shriram GI Holdings Private Limited (“Resulting Company 2” or “SGIH”) respectively; (iv) the amalgamation of SCL (with its remaining undertaking and investments) with Shriram Transport Finance Company Limited (“Company” or “STFC” or “Transferee Company 2”) ; and (v) the amalgamation of Shriram City Union Finance Limited (“Transferor Company 3” or “SCUF”) with STFC.

The Scheme also involves, incidental and ancillary to the amalgamation and demerger set out in (i) to (v) above:

- (a) The cancellation of the equity share capital of Shriram Financial Ventures (Chennai) Private Limited (“SFVPL”) held by SBCPL as set out in Part III of the Scheme;
- (b) The cancellation of the preference share capital (comprised of redeemable preference shares) of SCL held by the holders of redeemable preference shares of SCL and the issue of redeemable preference shares of SIHL to the said shareholders;
- (c) The cancellation of the existing equity share capital held by SCL in SIHL, SLIH and SGIH;

and for matters consequential, supplemental, and/or otherwise integrally connected therewith.

The Appointed date for the Scheme is 01.04.2022.

Rationale

The reasons and rationale underlying the Scheme specific to each of the concerned companies, which would make it beneficial for all the companies involved and their respective shareholders were explained as follows:

- (a) SBCPL and SCL are both companies carrying on the business of making and holding investments in various specific lines of businesses carried on by the Shriram Group, and have both been incorporated with same/similar objects. The amalgamation of these two companies will achieve the purpose of simplifying the Group structure by amalgamating entities which are similar in their fields of operation and objectives, unlock value for their respective shareholders, and eliminate the need for multiple layers of entities with the same focus.
- (b) The proposed demerger and vesting of the three undertakings, namely (i) Life Insurance Undertaking; (ii) General Insurance Undertaking, and (iii) Financial Services Undertaking, into SLIH, SGIH and SIHL respectively, from SCL, will enable the segregation of these lines of businesses each of which have independent requirements, strategies, focus and objectives. The demerger and vesting of these independent lines of businesses and undertakings into separate Resulting Companies, will enable those Companies to carry on each of the specialized lines of business with greater focus, tailors made strategies for operations and growth; enable the attribution of appropriate risk and valuation based on the risk-return profiles of each line of business; provide greater visibility to each of these lines of business, and enable them to attract investments.
- (c) The merger of SCL with its remaining undertaking, with STFC, will achieve the combination of the remaining line of business activities [i.e. other than the Life Insurance, General Insurance and Financial Services] of SCL with STFC, which is a listed entity engaged in the business of financial lending. This will ensure that the companies forming part of the Group, which are focused on the business of lending are concentrated in a single large entity, which has the necessary means, presence and resources to achieve larger scale in the business of lending, while reducing the presence of multiple entities across the Group, with an interest and presence in the same line of business.
- (d) The proposal in the Scheme to amalgamate SCUF with STFC, will also serve to be highly beneficial to all the stakeholders, by bringing together the capabilities and the presence of the Group in the categories of transport finance, and retail finance, and in the process create a larger financial lending entity with both these businesses combined, and the resulting benefits of scale and synergies of operation. This proposed merger will further consolidate the leadership position of STFC in the ‘Commercial Vehicle’ market. Following the proposed merger, and by virtue of SCUF’s extensive understanding of credit culture, the amalgamated entity will be able to launch retail finance products in locations that SCUF has not been able to penetrate. The combination of the operations of these two entities with their own vast networks of customers, will uniquely position the Group to ensure that each line of business is expanded to its fullest potential on the strength of a larger, amalgamated entity. This process will help in consolidating the vast branch network of these two companies and is likely to provide a variety of retail lending under a single window with attendant saving of expenditure.

- (e) All the Transferor Companies, the Resulting Companies and the Transferee Companies, are part of the same group. The Promoters of the Transferor Companies, the Resulting Companies and the Transferee Companies, are a common set of persons, and the demerger and amalgamation contemplated in the Scheme would only strengthen and reinforce the management of these Companies, while creating a dedicated leadership and management for each of the lines of business or verticals.
- (f) Being companies forming part of the same group, the amalgamation and demerger contemplated in the Scheme, would create entities that are unique to each of the lines of business activities carried on by the Group, while also enabling consolidation and lead to a more efficient utilization of capital, and create a consolidated base for the future growth of the various entities.

The amalgamation envisaged in the Scheme will also enable appropriate consolidation of the activities of the Transferor Companies and the Transferee Companies with pooling and more efficient utilization of their resources, greater economies of scale, cost synergy, ease of regulatory compliances and improvement in various operating parameters, in addition to enabling the carrying on of each of the businesses in a more efficient, streamlined and organized fashion.

The Scheme also involves, incidental and ancillary to the amalgamation and demerger set out in (i) to (v) above:

- (a) The cancellation of the equity share capital of Shriram Financial Ventures (Chennai) Private Limited (“**SFVPL**”) held by SBCPL as set out in Part III of the Scheme;
- (b) The cancellation of the preference share capital (comprised of redeemable preference shares) of SCL held by the holders of redeemable preference shares of SCL and the issue of redeemable preference shares of SIHL to the said shareholders;
- (c) The cancellation of the existing equity share capital held by SCL in SIHL, SLIH and SGIH;

and for matters consequential, supplemental, and/or otherwise integrally connected therewith.

The Appointed date for the Scheme is 01.04.2022.

Rationale

The reasons and rationale underlying the Scheme specific to each of the concerned companies, which would make it beneficial for all the companies involved and their respective shareholders were explained as follows:

- (a) SBCPL and SCL are both companies carrying on the business of making and holding investments in various specific lines of businesses carried on by the Shriram Group, and have both been incorporated with same/similar objects. The amalgamation of these two companies will achieve the purpose of simplifying the Group structure by amalgamating entities which are similar in their fields of operation and objectives, unlock value for their respective shareholders, and eliminate the need for multiple layers of entities with the same focus.
- (b) The proposed demerger and vesting of the three undertakings, namely (i) Life Insurance Undertaking; (ii) General Insurance Undertaking, and (iii) Financial Services Undertaking, into SLIH, SGIH and SIHL respectively, from SCL, will enable the segregation of these lines of businesses each of which have independent requirements, strategies, focus and objectives. The demerger and vesting of these independent lines of businesses and undertakings into separate Resulting Companies, will enable those Companies to carry on each of the specialized lines of business with greater focus, tailors made strategies for operations and growth; enable the attribution of appropriate risk and valuation based on the risk-return profiles of each line of business; provide greater visibility to each of these lines of business, and enable them to attract investments.
- (c) The merger of SCL with its remaining undertaking, with STFC, will achieve the combination of the remaining line of business activities [i.e. other than the Life Insurance, General Insurance and Financial Services] of SCL with STFC, which is a listed entity engaged in the business of financial lending. This will ensure that the companies forming part of the Group, which are focused on the business of lending are concentrated in a single large entity, which has the necessary means, presence and resources to achieve larger scale in the business of lending, while reducing the presence of multiple entities across the Group, with an interest and presence in the same line of business.
- (d) The proposal in the Scheme to amalgamate SCUF with STFC, will also serve to be highly beneficial to all the stakeholders, by bringing together the capabilities and the presence of the Group in the categories of transport finance, and retail finance, and in the process create a larger financial lending entity with both these businesses combined, and the resulting benefits of scale and synergies of operation. This proposed merger will further consolidate the leadership position of STFC in the ‘Commercial Vehicle’ market. Following the proposed merger, and by virtue of SCUF’s extensive understanding of credit culture, the amalgamated entity will be able to launch retail finance products in locations that SCUF has not been

able to penetrate. The combination of the operations of these two entities with their own vast networks of customers, will uniquely position the Group to ensure that each line of business is expanded to its fullest potential on the strength of a larger, amalgamated entity. This process will help in consolidating the vast branch network of these two companies and is likely to provide a variety of retail lending under a single window with attendant saving of expenditure.

- (e) All the Transferor Companies, the Resulting Companies and the Transferee Companies, are part of the same group. The Promoters of the Transferor Companies, the Resulting Companies and the Transferee Companies, are a common set of persons, and the demerger and amalgamation contemplated in the Scheme would only strengthen and reinforce the management of these Companies, while creating a dedicated leadership and management for each of the lines of business or verticals.
- (f) Being companies forming part of the same group, the amalgamation and demerger contemplated in the Scheme, would create entities that are unique to each of the lines of business activities carried on by the Group, while also enabling consolidation and lead to a more efficient utilization of capital, and create a consolidated base for the future growth of the various entities.

The amalgamation envisaged in the Scheme will also enable appropriate consolidation of the activities of the Transferor Companies and the Transferee Companies with pooling and more efficient utilization of their resources, greater economies of scale, cost synergy, ease of regulatory compliances and improvement in various operating parameters, in addition to enabling the carrying on of each of the businesses in a more efficient, streamlined and organized fashion.
